# GoodSoul Token (GSL)

The GoosSoul Token (GSL) was created to help people who find themselves in a difficult life situation at this difficult time and need help from others…

We are a group of young people who want to help others, the money from the sale of a token will go to pay for the treatment of diseases, we will contribute to families if the weather conditions damage their homes and other things.

We will promote all our donations on our website so that you can share the happiness of people with us.
